Re: Surge Oilfield Solutions Ltd.

Surge Oilfield Solutions Ltd. was sub-contracted by Ledcor for the 2011 Utilidor scope of work for the Kearl Initial Development Project. The work they performed was both aboveground and underground, and the pipe sizes ranging from 2" to 30".

Surge Oilfield Solutions Ltd. provided the following,

- supply qualified competent manpower.
- complete installation of all Fiberglass Reinforcement Piping (FRP) pipe bonds.
- assist with hydro testing set up, dewatering and pigging.

Surge Oilfield Solutions Ltd. extensive experience with FRP proved invaluable to Ledcor. Their commitment to superior workmanship, quality and safety coupled with their outstanding attitudes enabled them to complete there scope of work on schedule. Surge Oilfield Solutions have proven that they have the skill-set needed to complete complex FRP bonding.

Surge Oilfield Solutions Ltd. management and employees formed an excellent relationship with all key Ledcor employees working as one team.

Ledcor highly recommends Surge Oilfield Solutions Ltd, for all FRP Pipe fabrication and installation jobs. Their professionalism and commitment surpassed expectations.

Should you have any questions pertaining to Surge Oilfield Solutions Ltd. please do not hesitate to contact me.
